PROJECTS

Attendance Management System
This project was developed for daily student attendance in college. The information is sorted by the operators/admins, which will be provided to the teachers to evaluate, Hence helping college and students to keep track of their attendance.
Project was done using JAVA with Eclipse IDE and Oracle Database

E-shoppe project for an E-commerce website
https://www.figma.com/proto/DlVsFqwHhk9KvQLJv5joEy/Wireframing-for-Ecommerce-(Copy)?node-id=1-2&starting-point-node-id=102%3A343&mode=design&t=Teo36wX2LrXyxZet-1
